

Model: DUV Series

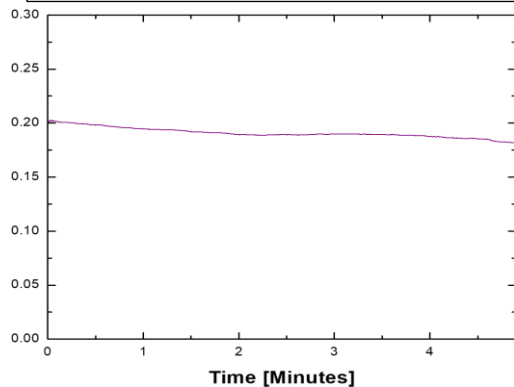

Typical 260nm Spectra

Typical 230nm Spectra

Typical Power Stability

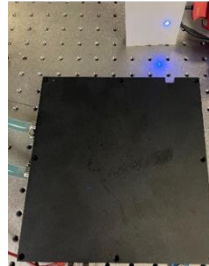

Features

Wide variety of wavelengths from 230-270nm

Output power ~100mW depending on wavelength with high power 250mW and 500mW coming soon

Patented T-Cavity laser allows for tuning to nearly any desired wavelength

High Power

Ultra Compact 2"x2"x0.5"

Information

Simple operation needs only laser driver capable of 11 Volts and 9Amps

Custom designs possible

7" x 7" x 2" (L x W x H) (high-Power)

Coming Soon!

Ultra-Compact 2"x2"x0.5" (Preliminary Design)
