

## Model: LG Series

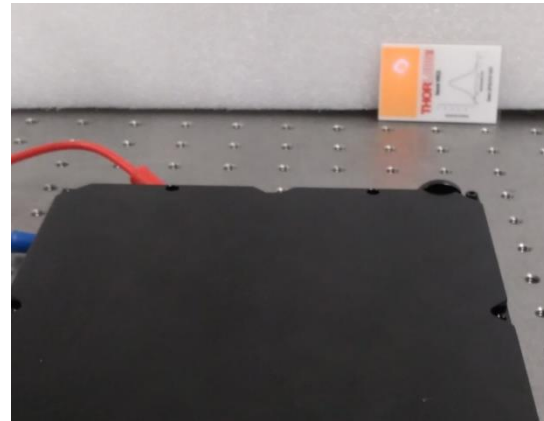

### Features

Wide variety of wavelengths from 900-1080nm with visible outputs coming soon

Output power up to 5W

Output beams contain orbital angular momentum (OAM)

LG modes from LG01 to LG15

### Information

Simple operation needs only laser driver capable of 11 Volts and 9Amps

Custom designs possible

7" x 6" x 1.5" (L x W x H)
