

Model Mini-Series I

New Model Available June 2022

Low Cost ~\$3,500 special pricing possible for volume orders

Simple operation and easily integrated into larger systems

Additional features and custom designs are possible

Features

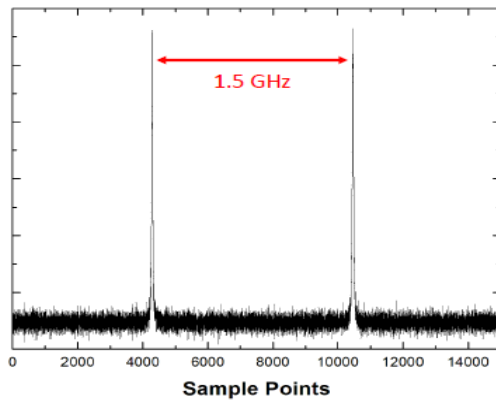

Single frequency operation with linewidth <500kHz.

Wide variety of wavelengths from 900-1080nm and visible outputs from 450nm to 540nm

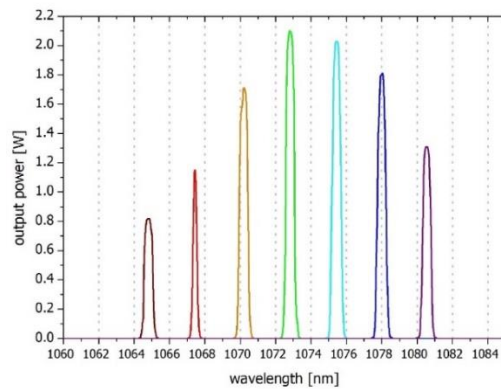

Output power up to 100 mW (wavelength and cooling system dependent)

Custom tuned to desired wavelength

Single Frequency Operation

Samples of Possible Spectra

Information

Simple operation needs only laser driver capable of 2 Volts and 3 Amps

Custom designs possible

Total laser volume 1 cubic inch
1.8" x 1.25" x 0.45" (L x W x H)
